Cosmo's ESG Rating Upgraded by S&P Global; Strengthens Supplier Sustainability Oversight Engagement, and Italian Manufacturing Plant Awarded EcoVadis Bronze Medal

Dublin, Ireland – November 11, 2025 – Cosmo Pharmaceuticals N.V. (SIX: COPN), a global leader in AI-powered healthcare and specialty pharma, today announced two major milestones in its sustainability journey, underscoring its commitment to transparency, responsible operations, and ESG leadership.

Cosmo's 2025 S&P Global Corporate Sustainability Assessment has been upgraded to the 67th percentile, a significant improvement from last year's 55th percentile. This advancement positions Cosmo among the top performers in its industry and reflects the Company's continuous progress in integrating sustainability across governance, environment, and social impact.

In parallel, Cosmo SpA, the Group's Italian manufacturing subsidiary, has been awarded an EcoVadis Bronze Medal for sustainable manufacturing, achieving an overall score of 64/100 and ranking above 71 percent of all rated companies. To further strengthen responsible sourcing, Cosmo has partnered with EcoVadis, a global leader in sustainability ratings, to evaluate its suppliers across environmental, social, ethical, and procurement standards. This initiative enhances supply-chain transparency, risk management, and supplier engagement to drive continuous improvement across the Group.

"This progress reflects our determination to lead with purpose," **said Niall Donnelly, EVP Corporate Governance & Chief Sustainability Officer at Cosmo**. *"We are embedding ESG into everything we do, from responsible sourcing to transparent disclosure; and will continue to raise the bar to create lasting value for patients, partners, and the planet."*
