

Cosmo Pharmaceuticals announces new R&D Day on May 8, 2019 in Zurich to inform on new products & strategy

Dublin, Ireland – March 27, 2019 - Cosmo Pharmaceuticals NV (SIX: COPN) today announced that it will hold an R&D Day in Zurich in the afternoon of May 8, 2019, to present its new product pipeline, opportunities and strategy.

“We have all been working relentlessly and silently to prepare the future of Cosmo notwithstanding the recent setback. Now we would like to share with our investors how we want to drive the company so that it can continue being an attractive, value generating, low risk investment. We are looking forward to inform our shareholders about all that we have been doing,” said Alessandro Della Chà, CEO of Cosmo.

Details about timing, location and agenda will follow.

About Cosmo Pharmaceuticals

Cosmo is a specialty pharmaceutical company that aims to become a global leader in the field of optimized therapies for selected Gastrointestinal Disorders and Endoscopic Procedures. The Company’s proprietary clinical development pipeline specifically addresses innovative treatments for IBD, such as Ulcerative Colitis and Crohn’s Disease, and Colon Infections. In addition, the Company has developed and launched Eleview, a medical device for polyp and adenoma excision, in the U.S. and it has filed the NDA for Methylene Blue MMX, a diagnostic drug for the detection of lesions during colonoscopy. In addition, new chemical entities are being developed by its associate company Cassiopea S.p.A. for the topical treatment of skin diseases. Cosmo’s MMX drugs already on the market are Lialda/ Mezavant/Mesavacol, a treatment for IBD that is licensed globally to Giuliani and Shire Limited and Uceris, the first glucocorticosteroid indicated for the induction of remission in active, mild to moderate Ulcerative Colitis, licensed in US to Santarus/Salix/Valeant and in the Rest of the World to Ferring as Cortiment. The FDA has also recently approved Aemcolo, Cosmo’s first antibiotic for the treatment of Travelers’ Diarrhea. Cosmo’s proprietary MMX technology is at the core of the Company’s product pipeline and was developed from its expertise in formulating and manufacturing gastrointestinal drugs for international clients at its GMP (Good Manufacturing Practice) facilities in Lainate, Italy. The technology is designed to deliver active ingredients in a targeted manner in the colon. For further information on Cosmo, please visit the Company’s website: www.cosmopharma.com
